ESS ENVIRONMENTAL TRIBAL TRAINING AND CLEAN-UP FOR METH & FENTANYL CONTAMINATION OF HOUSES & BUILDINGS

ESS will provide a one day on site training for tribal staff to go over hands on clean-up and procedures of contaminated homes and buildings either labs or usage where confirmed meth and fentanyl has been detected and tested.

We will provide all the certified and approved products needed for clean-up and de-contamination with a start up kit that can be used many times depending on how large the homes and buildings are. Product list flyer will be provided along with cost with cost of products.

ESS will provide a certificate to all trained tribal staff the went through our training and educational program.
